SUMMARY

Full-Stack Software Engineer building TypeScript/Python applications, scalable backend systems, and AI-powered products. Strong foundation in web standards and problem solving, backed by ICPC and Codeforces achievements.

EDUCATION

B.S. in Computer Science — Nile University, Egypt Sep 2021 – Sep 2025
Full-Stack Development Curriculum — The Odin Project (Open Source) Jul 2025 – Mar 2026

EXPERIENCE

Volunteer Software Engineer — Sync Jun 2026 – Present

- Built core features for a multi-tenant recruiting platform across React/TypeScript and Python/FastAPI, spanning candidate, recruiter, and platform-admin workflows.
- Developed semantic candidate search using profile chunking, embeddings, pgvector/HNSW ranking, filters, and background re-embedding.
- Built automated screening and AI match assessments that compare applications with job criteria and surface match scores, strengths, and gaps.
- Improved reliability and scale with keyset pagination, targeted database indexes, and concurrency-safe background workers.
- Added integration and UI test coverage with Pytest and React Testing Library, using MSW to mock API requests.

Shopify Web Developer — Freelance Mar 2026 – Present

- Delivered 3 custom Shopify storefronts for international clients using Liquid and Web Components.
- Built a webhook-driven restock notification service and improved storefront SEO/performance with structured data and responsive media.

ACHIEVEMENTS

- NUCPA 2025: 1st Place in the Nile University Competitive Programming Arena.
- ECPC 2025: Ranked 129th / 1,734 participants and 4th among 80+ university teams.
- Codeforces Specialist after 50+ competitive programming contests.
- Official ICPC Coach for 6 teams preparing for ICPC 2026.

PROJECTS

Cinema Discovery & Social Platform [Website](#) | [GitHub](#)

- Built a movie discovery and social platform aggregating showtimes from 50+ cinemas in Egypt, with automated data sync, social features, and optimized media uploads.

Automated Research Assistant [GitHub](#)

- Built an agentic research pipeline that routes queries, runs parallel tool-calling research, synthesizes structured reports, and self-evaluates with retry feedback.

Real-Time Chat Application [Website](#) | [GitHub](#)

- Built real-time messaging with raw WebSockets, presence, read receipts, group chats, and cursor-paginated conversation history.

LANGUAGES

Arabic (Native) • English (IELTS Band 7)

CERTIFICATIONS

MongoDB Associate Developer — [MongoDB](#) Apr 2026
DevOps with Docker — [University of Helsinki \(MOOC\)](#) Jun 2026
Machine Learning Specialization — [DeepLearning.AI](#) Jun 2025
TypeScript: From First Steps to Professional — [Frontend Masters](#) Feb 2026

SKILLS

TypeScript • JavaScript • Python • SQL • React • Node.js • FastAPI • PostgreSQL • MongoDB • Supabase
pgvector • LangGraph • Docker • Git • WebSockets • React Query • OpenAPI
Pytest • Vitest/Jest • React Testing Library • Playwright • MSW
